

AHMED AYMAN

FACULTY OF COMPUTERS AND ARTIFICIAL INTELLIGENCE

SUMMARY

- Student at faculty of computers and artificial intelligence 3th year
- Competitive programmer
- Junior. NET Core developer
- Interested in solving problems

WORK EXPERIENCE

pharmacy system

I and a team of five people did an analysis of a pharmacy system and how to manage it completely, and then created this system in the form of a computer program connected to a database

Library system

Together with a team of five members, we did an analysis of a library system, including the initial cost, the number of screens, their design, and the time needed to make this system work

EDUCATION

Bachelor Of Science In Computer Science

California Institute Of Technology

Subjects Covered

- Networks
- Databases
- Mathematics
- Data Structures
- Software Design
- Interface Design
- Web Technologies
- Operating Systems
- Software Engineering
- Security and Encryption
- Software Project Management
- data where house distributed database

GENERIC DEVELOPMENT SKILLS

- Networking
- Unit Testing
- Code Reviews
- Data Structures
- Html
- Css
- Algorithm Design
- Operating Systems
- Agile Methodologies
- Object-oriented Design
- Continuous Integration
- Planning and Estimation
- problem solving

SKILLS

Version Control Systems

- Git

Code Hosting Services

- GitHub

C# .Net

- Linq
- Entity framwoek

Office Suite

- Microsoft Office

Databases

Sql

Programming Languages

- C#
- C++

Development/Environment Tools/Techniques

- problem solving
- team work
- data structure
- algorithm
- MS Visual Studio
